

Every Morning Lyrics

Every mornin', my baby goes off like a clock
Every mornin', my baby goes off like a clock
When she gets a buzzing, you know she's hard to stop

She turn me over easy get that sunny side up
She turn me over easy get that sunny side up
Well when my baby gets a cooking, you know I can't get enough.

Every mornin' make it percolate
Every mornin' make it percolate
Well my blood get a boiling, you know I just can't wait

You know she warm me like toast, she spread me just like jam,
You know she warm me like toast, she spread me just like jam,
Every mornin', she make me glad I'm her man
