

Had A Little Woman Lyrics

Had a little woman you know she broke my heart in two
Had a little woman you know she broke my heart in two
Got one piece for me, got one piece left for you

Give you a million dollars, Lord just promise to be mine
Cool million dollars, you just promise to be mine
Count your money honey in the way I make you feel so fine

Come on baby, ain't nothing you gotta pay
Come on now baby, ain't nothing you gotta pay
All you gotta do now is give yourself away

Had a little woman broke my heart right in two
Had a little woman broke my heart in two
Got one piece for me and one piece to give to you
