

Shining Through

Hear the wind, wind a rattling the trees
Lot like the way, way you rattle me
Call out my name
I ain't to blame
The way your loving
Liquefy my brain
I see you shining
You're just a shining in everything I see

Hear that rain, you know it's just a beating down
It's a lot like my tears, when your not around
Get chills inside
It makes me high
Your sweet loving baby's
Got me mystified
I see you shining
You're just a shining in everything I see

Watch the stream, I mean that stream's just a rolling by
You know a love like ours ain't never gonna die
Moon come out at night
Sun come in the day
You're the light in my world
Now you're back to stay
I see you shining
You're just a shining in everything I see
