

## *Too Many Women Blues Lyrics*

Well got a good woman, believe I'll get me two  
I got a good woman, think I'll get me two  
Have the first good girl show the second girl what to do

Got two good women, think I need me three  
Got two good women, think I need me three  
Got two women to love me, third one just to leave me be

I got three good women, think I'll get me four  
I got three good women, think I'll get me four  
Gonna be so busy loving I need someone just to answer the door

Got four good women think I'll get me five  
Yeah four good women think I'll get me five  
Gonna need somebody just to keep me alive

I got too many women blues  
Too many women blues  
Too many women blues  
Have too many women blues  
Got so many women I just don't what to do

Yeah too many women blues  
Too many women blues  
Too many women blues  
Have so many women I just don't what to do
