

White Lightening Lyrics

White lightenin' gonna strike me down
Yes white lightenin' gonna strike me down
Everywhere I look white lightening all around

White lightenin' set my feet go free
Yes, white lightening set my feet go free
Everywhere I go white lightning chasing after me

Know a lot of women, nobody I can call my own
So I Know a lot of women, nobody I can call my own
Got a lot of houses ain't got me no home

You know what it's like to talk and have nobody hear
Say you know what it's like to talk and have nobody hear
My heart is open but there ain't nobody lying near

White lightenin' I'll tell what I see
Yes white lightenin' tell what I see
I'd give all my lovin' but there wouldn't be no lovin' left for me

Come a hungry, hungry knocking at your door
I say I come a hungry, hungry knocking at your door
All you do now baby is ask what I knocking for

More clouds in the sky than there's fingers on my hand
More clouds in the sky than there's fingers on my hand
Look into the light 'cause then you'll understand

Say down on your knees look up into the sky
Yeh down on your knees look up into the sky
White lightenin' says do what you feel 'cause you need now reason why

White lightenin' set me free
Yes white lightenin' you know you gonna set me free
White lightenin' let me be whatever I gonna be
